

## Client Testimonial – Inventor

<i>Client:</i>	A lone inventor based in the US.
----------------	----------------------------------

*“What can I say about Exponent IP? They were divine. I have long experience of some of the ‘characters’ who inhabit the IP world, and David and Benoit are simply on a different level. They were nothing but helpful from the moment I first talked to them and absorbed all the legal detail and negotiating nonsense that often happens (and that I hate) in IP deals.*

*At the end, I came out with what I regard as an exceptional return on the time I invested in developing my patents.*

*I don’t plan on doing any more IP deals, but if I did, I would not talk to anyone but David and Benoit.*

*In a word: peerless.”*
